**PRODUCT INFORMATION:** GoldStart is the most popular low-salt, 80/20 ratio of ortho-to-polyphosphate liquid fertilizer in the PureGrade product line. It is 100% pure liquid fertilizer produced from the finest quality raw materials. It is completely seed safe and is designed to be placed in furrow, positioned 2x2 from the seed during planting or foliar applied.

**DIRECTIONS FOR USE:** Use in accordance with recommendations of a qualified individual/institution. Do not mix with calcium based fertilizers.

**FOLIAR APPLICATION:** Fill spray tank with water prior to adding fertilizer or other products. Do not apply directly on the seed in saline, alkali, or coarse textured soils.

**RECOMMENDED RATES:** This product should be used on the basis of a soil and/or tissue analysis. Suggested application rates are for one growing season during periods of high temperatures. Use of a surfactant may enhance leaf coverage and increase nutrient absorption. Repeat applications may be beneficial. Use only as directed to avoid foliar burn. Do not apply when crop is excessively stressed for moisture or exhaust ventilation are recommended.

**FIRST AID MEASURES:**
- If swallowed: If victim is alert and not convulsing, give one glass of water to dilute material, but DO NOT induce vomiting. Seek immediate medical attention.
- If in eyes: Immediately flush with water for at least 20 minutes. Seek medical attention if irritation persists.
- If inhaled: Move victim to fresh air. Seek medical attention if irritation persists.
- If on skin: Wash affected areas with soap and water. Seek medical attention if irritation persists.
- If inhaled, remove to fresh air and keep at rest in a position comfortable for breathing
