PRODUCT INFORMATION: Premium grades are an economical low-salt fertilizer solution. They are formulated to deliver a 50/50 ratio of ortho- to polyphosphate for early season activation. Multi-purpose Premium grades mix well with nitrogen, micronutrients, and crop protection chemicals. They can be safely placed in close proximity to the seed at planting and can also be foliar applied.

DIRECTIONS FOR USE: Use in accordance with recommendations of a qualified individual/institution. Do not mix with calcium based fertilizers.

Soil Application: Apply in-furrow, 2x2, or at sidedress or topdress. Do not apply directly on the seed in saline, alkali, or coarse textured soils.

Foliar Application: Fill spray tank with water prior to adding fertilizer or other products. Use only as a supplement to a regular nutrient management program. Repeat applications may be beneficial. Use only outdoors or in well ventilated areas.

PPE: Handlers and applicators should wear NIOSH-approved particulate or mist respirator if required. Safety glasses with side shields, goggles, or a face shield, long-sleeved shirts, rubber gloves, and local exhaust ventilation are recommended.

CONDITIONS OF SALE: Recommendations for use of this product are based upon factors believed to be reliable. However, because time, place, rate of application, weather and other conditions of use are beyond the control of the manufacturer, no written or implied warranty is given for product performance. The Andersons warrants this product meets the criteria published in its product specifications.
