PRODUCT INFORMATION
First Pass® is an in-furrow starter fertilizer specifically formulated to maximize your soybean yields. For best results, use in a program with OverPass® SF, our premium soybean foliar.

FEATURES
- Low-salt, chloride free and near neutral pH
- 100% water soluble
- 100% orthophosphate
- Virtually non-corrosive

BENEFITS
- Provides early-season nutrients
- Encourages early flowering and maturity
- Promotes canopy development to suppress weeds

FREQUENTLY ASKED QUESTIONS
Q: Why does First Pass include manganese?
A: Manganese improves germination and hastens maturity for earlier flowering. It also helps resist root and foliar diseases caused by fungi.

Q: Can First Pass be foliar applied?
A: Yes, not only is First Pass seed safe, but it is also recommended for foliar application for better fertilizer efficiency.

Q: Why is First Pass unique in the marketplace?
A: First Pass is a unique blend of nitrogen, phosphorus, and potassium acetate. We have also formulated in manganese into the product specifically for your soybean crop.

GUARANTEED ANALYSIS
Total Nitrogen (N) ................................................................. 3.0%
3.0%...Urea Nitrogen
Available Phosphate (P₂O₅) .................................................. 5.0%
Soluble Potash (K₂O) ............................................................ 15.0%
Manganese (Mn) ................................................................. 0.2%
0.2%...Chelated Manganese

Derived from: urea, phosphoric acid, potassium acetate, potassium hydroxide, manganese EDTA

PHYSICAL PROPERTIES
pH ................................................................. 6.8-7.5
Specific Gravity .............................................................. 1.25 @ 68°F
Density ................................................................. 10.4 lbs/gal
Equilibrium Temperature .................................................. 0°F

Derived from these elements.

CAUTION: This fertilizer contains manganese and should be used only as recommended. It may prove harmful when misused.

It is not recommended for First Pass products to be mixed with 10% or 12% nitrogen.

PRODUCT INFORMATION: First Pass® is an in-furrow starter fertilizer specifically formulated to maximize your seedbed yields. For best results, use in a program with OverPass® SE, our premium seedbed fertilizer.

DIRECTIONS FOR USE: Follow the recommendations of a qualified individual/cultivation. Do not mix with calcium-based fertilizers.

SOIL APPLICATION: Apply in-furrow, 12 oz., or at shallow, seed, 100% of recommended rate.

RECOMMENDED RATES: This product should be used on the basis of a soil and/or tissue analysis. Suggested application rates are for one growing season (applications are used in the absence of soil and/or tissue analysis).
